iDEA EXPERIENCE BADGES

These are badges we are making with partners to accredit their digital events and experiences.

If a learner participates in a partner activity accredited by iDEA, they will be awarded a special badge, and receive a badge code. The learner can then use this badge to receive points for that activity, acknowledging their participation and providing evidence of learning. Badges earned with partners then appear in the Completed Badges section of the learners iDEA Badge Store, and will be part of their individual Record of Achievement.
